

ALIBRIGHT

ALUMINIUM BRIGHTENER & RESTORER

ALIBRIGHT is a very powerful and highly acidic cleaning solution suitable for the removal of scale, oxide and ingrained stains from any aluminium surface.

ALIBRIGHT restores oxidised aluminium to an “as new” appearance. Uses include the cleaning of aluminium window frames in the home, office and greenhouse, aluminium vehicle parts, cooking utensils and numerous other applications.

DIRECTIONS:

Do not use undiluted. Dilute as follows:

5:1 with water for normal use

3:1 for heavy deposits

3:1 for heavy deposits

Apply by spray or stiff brush and wash off well with water. (Goggles and gloves at the very least must be worn – see safety data sheet).

N.B. Take care to test delicate surfaces on a small inconspicuous area prior to use. Will etch glass.

DO NOT MIX WITH BLEACHES, DETERGENTS OR ANY OTHER CHEMICALS.
