

PRO CARB

CARBURETTOR AND CHOKE CLEANER

PRO CARB is brought into our range primarily for use in the automotive, transport and distribution industries.

PRO CARB is welcomed by mechanics as an extremely strong and efficient carburettor, choke and engine cleaner. With the first spray PRO CARB readily dissolves carbon, gum oil and varnish without affecting most painted surfaces.

With the second spray, it literally blasts off all the dirt, grease and excess carbon, cleaning all carburettor parts without the need to dismantle.

PRO CARB is very fast drying.

PRO CARB leaves no oily film to cause further sticking and binding.

PRO CARB Also extremely useful for cleaning two-stroke engines such as those found in lawn mowers. It is used by hire companies, parks departments, stately homes, sports grounds and lawn mower repairers etc.

PRO CARB is excellent for cleaning chains prior to use of PROLUBE.

PRO CARB is very useful in the removal of silicone and silicone based greases, anti-seize greases, most glues and most inks.
