

PRO SCALEGONE

LIME SCALE REMOVER - FAST ACTING

SCALEGONE is brought onto the range as a more effective and more powerful version of PRO PHOS

SCALE GONE contains a blend of acids and low foaming cleaning agents which start working instantly to remove lime scale deposits.

SCALE GONE acts instantly - you can see the bubbles being released as soon as SCALE GONE contacts the scale.

SCALE GONE is safe to use on stainless steel - unlike many other lime scale removers.

SCALE GONE is completely biodegradable.

SCALE GONE can be used on all stainless steel hotel equipment with peace of mind. Ideal for the renovation of dishwashers, water heaters, boilers etc.

HOW TO USE

Dilute with up to 10 parts warm water and soak equipment to be cleaned in it for 15-30 minutes. For heavy scale removal or if effervescing ceases add a little more

Use SCALE GONE to restart the cleaning action.
