

PRO PHOS

LIME SCALE REMOVER - FAST ACTING

PRO PHOS contains a blend of acids and low foaming cleaning agents which start working instantly to remove lime scale deposits.

PRO PHOS acts instantly you can see the bubbles being released as soon as PRO PHOS contacts the scale.

PRO PHOS is safe to use on stainless steel - unlike many other lime scale removers.

PRO PHOS is completely biodegradable.

PRO PHOS can be used on all stainless steel hotel equipment with peace of mind. Ideal for the renovation of dishwashers, water heaters, boilers etc.

For a stronger concentrate specify SCALEGONE

HOW TO USE

Dilute with up to 5 parts warm water and soak equipment to be cleaned in it for 15-30 minutes. For heavy scale removal or if effervescing ceases add a little more PRO PHOS to restart the cleaning action.

PRO PHOS can also be used to remove cement or plaster from floors and patios, and for the cleaning of brickwork, concrete surfaces, patios etc.

PRO PHOS is available in handy 5 litre or 25 litre containers.
