

MEDECON

MEDICATED CLEANER

MEDECON is a super concentrated, free rinsing cleaner, containing a powerful, broad spectrum bactericide that is safe to use on any washable surface. It cleans, disinfects and de-odorises, all in one operation, saving time, money and labour.

MEDECON is equally effective in hot or cold, hard or soft water. It is safe to use and contains no corrosive or harsh alkaline ingredients.

MEDECON removes dirt, grime, grit and greases easily and quickly whilst at the same time, attacks bacteria and other micro-organisms reducing the risk of cross infection and keeping surfaces antiseptically clean.

MEDECON removes odours that cling to surfaces, eliminating the odours at their source by acting against odour-forming bacteria, the bactericidal action still being effective when diluted with 100 parts of water.

MEDECON is effective against a broad spectrum of gram-positive and gram-negative bacteria, mould, yeast and fungi such as Lactobacillus buchneri, Streptococcus pyrogenes, MRSA, C.Diff, Staphylococcus aureus, Bacillus cereus, Bacillus subtilis, Pseudomonas aeruginosa, Serratia marcescens, Klebsiella aerogenes, Klebsiella pneumoniae, Proteus vulgaris, Escherichia coli, Salmonella typhi, Salmonella enteritidis, Aspergillus niger, Penicillium digitatum, Rhizopus nigricans, Candida albicans and Saccharomyces cerevisiae, etc.

Following the use of MEDECON, it will go on working for many hours, killing germs and de-odorising. Used on a damp cloth MEDECON is ideal for cleaning and sterilising telephones.

MEDECON is strongly recommended for use in commercial premises, educational establishments, hospitals, laundries, public baths, food industries, breweries, abattoirs, toilets, holiday camps, leisure centres, etc.

MEDECON is non-flammable and completely biodegradable.

The ingredients in MEDECON consist of food grade material and meet FDA 1 standards and are safe for incidental food contact.

SUITABLE FOR THE CLEANING AND SANITISING OF FACE MASKS
