

Free It

FREES UP FROZEN PARTS, CUTS THROUGH RUST, LUBRICATES & PROTECTS
(Aerosol)

Free It is a superior quality penetrating fluid which will loosen the toughest of frozen, corroded and rusted nuts, bolts, locks, pipe fittings and parts. Free It also provides excellent moisture displacement for electrical and other water sensitive components. Protects metal surfaces from corrosive elements such as air, moisture and salt.

Features & Benefits

- Excellent penetrating fluid
- Prevents rust and corrosion
- Contains no chlorinated solvents (such as trichloroethylene)
- Fast acting
- Moisture displacement properties

Applications:

Excellent to loosen frozen, corroded and rusted nuts, bolts, locks, pipe fittings and parts.

Directions for Use:

Shake well before using. To free frozen parts, spray liberally on frozen part, tap lightly, allow to soak until loosened. For best results, brush off loose rust and dirt before spraying.

For lubrication and corrosion protection, spray on surface and allow to dry.
Do not remove.

To dry moisture soaked parts, spray and wipe off excess with soft cloth or tissue.
