

PLUSH

CARPET CLEANER & LOW FOAMING SHAMPOO

PLUSH is a low foaming, anti-static, bactericidal carpet shampoo with a special air freshening fragrance.

PLUSH has deep cleaning power, loosens and suspends grit and dirt.

Penetrating foaming action works thoroughly but gently to remove most stubborn stains.

The low foaming action keeps carpet backing dry - allowing the shampooed area to be occupied within hours.

Suitable for all types of carpets and fabrics, natural and synthetic for cleaning by spray as a PRE-SPOT or in EXTRACTION machines.

Contains a special air-freshening fragrance which neutralises any unpleasant odours activated in the carpet or fabric.

The anti-static compound will drain off any static electricity that may have built up in the carpet.

Very economical and effective in dilution. Cleans without leaving residues.

Dilute with hot or cold water from 1 : 10 to 1 : 100, depending on degree of soiling

Can also be used as a general cleaner where low-foaming is a requirement.

Completely biodegradable.
